FOR IMMEDIATE RELEASE:

**BG PRODUCTS, INC. INTRODUCES  
THE NEW BG DIESEL INDUCTION SERVICE**

Appoints new International Vice President and Managing Director

WICHITA, Kan. — May 18, 2007 — BG Products, Inc. presents the new, first-of-its-kind BG Diesel Induction Service, guaranteed to save service shop hours, available mid-May.

Specifically designed for the Ford 6.0 Powerstroke, the BG Diesel Induction Service chemically cleans the complete EGR system including the exhaust gas runners and the air intake. This service sends BG Diesel ISC® Induction System Cleaner,™ Part No. 25532, through the EGR runners and cavities as well as the air intake. BG 109 Compression Performance Restoration, Part No. 10932, is added to the engine oil during the induction service to clear the oil passages of the hydraulic injectors and restore performance, without engine tear down.

The BG Diesel Induction Service is one of the many BG services that combine premium BG products with the right technology and equipment to help build any automotive service business.

BG Products, Inc. is dedicated to making vehicles last longer and perform better in the meantime. Every business day more than 100,000 shops, dealerships and technicians worldwide use our products, services, tools and equipment. In partnership with an international family of distributors, BG serves the driving public with innovative products and proven programs of automotive maintenance. Contact your local BG Distributor or visit us on the web at [www.bgprod.com](http://www.bgprod.com).
