

# integrated management system policy

**BG Products, Inc.** maintains an Integrated Management System to provide products that meet or exceed customer expectations while reducing the environmental impacts of its operations, activities, products and services in a safe and healthy manner.

## Management commits to:

### CONTINUAL IMPROVEMENT

- Continually enhancing and improving the Integrated Management System to ensure that it is appropriate and effective in helping the company to reach stated goals.
- Maintaining and reviewing systems for identifying relevant requirements and monitoring performance of related activities through internal and external audits.
- Implementing practices and resources to prevent injury and ill health.

### COMPLIANCE

- Complying with applicable OH&S and environmental laws, regulations, codes of practice and other requirements to which the company subscribes.
- Identifying applicable requirements, establishing objectives and targets for achieving, maintaining, and implementing measures to monitor compliance.

### PROTECTING THE ENVIRONMENT

- Identifying materials, processes and products that cause or may cause pollution.
- Implementing measures to avoid, reduce or control pollution where technically and economically viable.

**All employees are responsible for contributing to the success of this system and this policy through their actions and suggestions.**

**Management is committed to providing leadership so that employees can maximize their potential to meet quality, environmental and OH&S goals and satisfy customer need.**
